

## Hyperspace – Seminar #1

“I pity the man who never thinks about heaven” J.C. Ryle

“Unfamiliarity with heaven makes a dull and worldly Christian” John MacArthur

“Do you know the ordinances of the heavens, Or fix their rule over the earth?” Job 38:33 (NAS)

### Background:

- Introduced to the subject of hyperspace about 15 yrs. ago (Missler)
  - Connelly saw some of my work in this area and encouraged me to do more
  - Spent past several years in detailed research on the subject
  - “If heaven is real, where is it?”
- Ground Rules for Research
  - Bible is the very word of God; without error in their original writing
  - Science provides insight but is fallible
  - Without dispute (evolution aside): The Bible has provided amazing scientific insights that modern science has only recently begun to embrace.
- 4 Part series – the remainder will be on Monday nights
  - 2/10 - “The Invisible“; 3/7 - “The Spooky“; 4/11 - “The Bizarre“; 5/2 - “The Incredible“
  - Tonight especially includes some conjectures; you need to do your own homework before you accept these postulates

### History of Hyperspace

- 1854: Georg Bernhard Riemann proposes the universe has higher dimensions
- 1905: Albert Einstein’s Theory of Special Relativity
  - Time is a 4th Dimension
- 1919: Kaluza-Klein Theory:
  - Universe has another Spatial Dimension, 5th Dimension
- 1930: Quantum Mechanics:
  - Micro look of the world didn’t need higher dimensions
- 1984: Green & Swartz propose Superstring Theory
  - 10 dimensions to the universe
- Present: All advanced theories of physics are based on higher dimensions

“Historically, the concept of hyperspace has been resisted strenuously by physicists; they scoffed that higher dimensions were the province of mystics and charlatans. Scientists who seriously proposed the existence of unseen worlds were subject to ridicule. With the coming of M-theory, all that has changed. Higher dimensions are now in the center of a profound revolution in physics...” \* Dr. Michio Kaku: Michio Kaku *Parallel Worlds* (Doubleday, 2005), 185

### Higher Dimensions in scriptures

- 1265: Ramban Nachmanides (venerated Jewish Rabbi):
  - Stated that Scripture informs us that there are 10 dimensions to the universe
  - 4 knowable, 6 unknowable (From Genesis 1)
- 1884: The believing community began to suggest that heaven could be located in higher dimensions (hyperspace)
- 1884 - E. Abbot: “Flatland: A Romance in Many Dimensions”
- 1888 - A.T. Schofield: “Another World”
- 1893 - A. Willink: “World of the Unseen”
- 1900’s: For the most part, the church ignored hyperspace

## Hyperspace – Seminar #1

- 1990's: Dr. Chuck Missler began to discuss higher dimensions in a spiritual context noting that the Bible describes a higher dimensional universe, others also joined in (Dr. Lambert Dolphin...)

### Hyperspace and Scripture

- Scripture indicates higher dimensions
  - Heavens were "stretched out": 2Sam 22:10; Job 9:8; 26:7; 37:18; Ps 18:9; 104:2; 144:5; Isa 40:22; 42:5; 45:12; 48:13; 51:13; Jer 10:12; 51:15; Eze 1:22; Zech 12:1
  - Heaven will be "torn": Isa 64:1; Heb 1:11-12
  - Heaven will be "rolled up": Heb 1:12; Isa 34:4
  - Heaven will be "split apart": Rev 6:14
  - Heaven will be "shaken": Hag 2:21; Hag 2:6; Isa 13:13
- Scripture indicates time is a property (dimension)
  - Time began with the beginning of the universe
  - Gen 1:1; 2 Tim 1:8-9; Titus 1:2; Jude 25; John 1:1-3

Scriptures, for over 2,500 years, have clearly implied the existence of Higher Dimensions (Hyperspace) which has only recently been recognized by secular science.

### What is Hyperspace

"The only ones who can picture hyperspace are mathematicians and little children" Chuck Missler  
 1D line ( $L$ ); 2D square ( $L \times L = L^2$ ); 3D cube ( $L \times L \times L = L^3$ ); 4D hypercube ( $L \times L \times L \times L = L^4$ )

Don't Try to Visualize Hyperspace: You will only end up hurting yourself!

2D to 3D analogies can give us insight: but we really can't understand the 4th Spatial Dimension

Veil Demonstration: Not "Theo-Magic"

### Hyperspace in Scripture: Example #1 (John 20:19; Luke 24:33-43; John 20:26)

The Set-up: John 20:19 & Luke 24:33-43; Disciples gathered in a room in Jerusalem: Sunday afternoon: Thomas is not there: Two folks have just shown up from the road to Emmaus: Doors are closed and locked; they are very afraid

The Event: Jesus appears "out of nowhere": They are startled and frightened: They think he is a spirit: Jesus responds with: *"Why are you troubled, and why do doubts rise in your minds? Look at my hands and my feet. It is I myself! Touch me and see; a ghost does not have flesh and bones, as you see I have." When he had said this, he showed them his hands and feet.* Luke 24:38-40

Then He says...

Flat 2D World of the Gumba's (Ant Farm)

Or, He Travels in 3 Dimensions

What is going on?

- Michio Kaku (PhD physicist): He is the Henry Semat Professor of Theoretical Physics at the Graduate Center of City University of New York
- Pioneer and leader in the advanced emerging theories of physics including Super String Theory and M Theory: Physics of Higher Dimensions
- Author of physics book "Hyperspace"
- Comment on a being traveling in higher dimensions:
  - "Imagine being able to disappear or reappear at will...What being could possess such God-like power? The answer: a being from a higher-dimensional world" \* Dr. Michio Kaku: \* Michio Kaku *Hyperspace* (Anchor Books, 1995), 46.

Conclusion: God has told us these things for a reason and the only plausible explanation for this event is that Christ's resurrected body can travel in higher dimensions (hyperspace)

## Hyperspace – Seminar #1

There is no other reasonable conclusion.

### **Hyperspace in Scripture: Example #2:** (Daniel 5:1-30)

The Set Up: Daniel 5:1-30:

King Belshazzar: Currently ruling the Empire of Babylon (from the city): His father is out of the country: The Empire of Babylon is virtually world wide

Grandson of the great Babylonian King: King Nebuchadnezzar: His is proud and arrogant

King Belshazzar's big party: At Babylon: the great double walled city: Recent threats from the rising coming power Medes-Persians: Belshazzar throws a party – safe behind Babylon's massive wall system: It is quite a party: 1,000 nobles, wives and concubines: Foolishly, he decides to get the golden cups taken from the raid on the now destroyed Jewish Temple in Jerusalem

The Event: A hand appears "out of nowhere": The mysterious hand writes a coded message on the Palace Wall: King Belshazzar: turns pale, his thoughts became alarming, his loins were loosed (prophesied in Isa 45:1), and his knees knocked together: King Belshazzar promises riches for the interpretation of the message: Daniel is brought in: Reminds him of his grandfather, Gives a scathing indictment of Belshazzar: Interprets the message: The king is slain that night.

What's going on? Michio Kaku

Comment on someone from a higher dimension dropping a hat into our 3D world and reaching in to retrieve it: "...Then he sees a disembodied hand reaching out the window, desperately groping for the hat" \* Dr. Michio Kaku: Michio Kaku *Hyperspace* (Anchor Books, 1995), 229.

Conclusion: God has told us these things for a reason and the only plausible explanation for this event is that an angel or other spiritual being reached through the fabric of space and wrote the message on the palace wall: There is no other reasonable conclusion

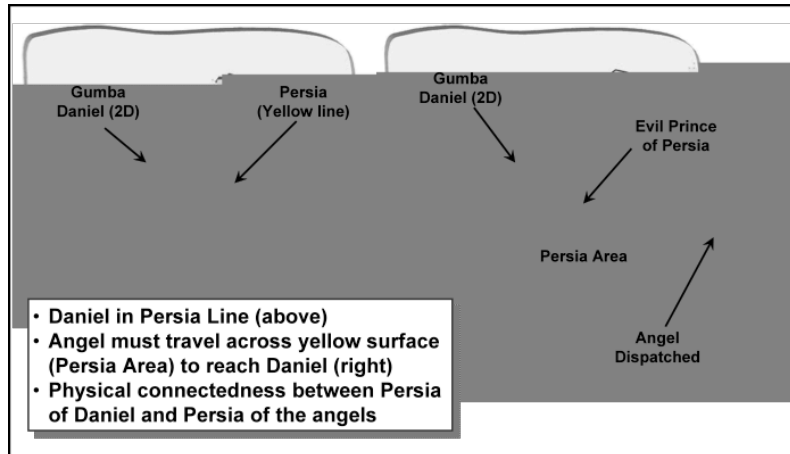

### **Hyperspace in Scripture: Example #3** (Daniel 10)

The Setup: Daniel 10:10-20: Daniel: the Great Prophet (now a little over 80): He is in Babylon; Cyrus the Mede is Emperor: Daniel is 2nd in command in the kingdom: Daniel is concerned about his people Israel and prays to understand the future of his people and the Nation: Daniel prays and continues for 3 weeks: No tasty food, no meat, no wine, no ointments: On the 21st Day, he is down by the Tigris River; Gabriel shows up

The Event: Gabriel (generally thought) a mighty angel shows up: Gabriel provides this bizarre excuse as to why it took him 21 days to get there: He has been fighting the "Prince of the Kingdom of Persia" (head evil being in charge of this area): Daniel almost passes out: Gabriel revives him: Daniel questions how an angel can talk to a human (it is the question we ask tonight): Gabriel strengthens him and explains: Gabriel will return later to fight the "Prince of Greece"

## Hyperspace – Seminar #1

### What Can We Learn (Hyperspace) From This Event?

- Invisible world and the visible world are **connected together**: they are linked
- Territories on Earth have a **complementary territory (dominion)** in the spiritual realm
- **Time is the same** on Earth as it is in the Spiritual Realm (21 days)
  - Later we will see that length measurements are the same in both realms as well
  - Strongly implies we are part of the same space-time continuum
- If Gabriel's words are to be believed; then the passage only really makes sense if viewed from a higher dimensional or hyperspace perspective

Conclusion: God has told us these things for a reason and the only plausible explanation is that He wants us to know and understand the space-time link between the seen and unseen worlds and that the unseen world is a profoundly higher dimension (hyperspace)  
There is no other reasonable conclusion.”

### Hyperspace in Scripture: Example #4 (2 Kings 2:1-12)

Kia car entering wormhole.

Wormhole: “Then in 1963, Roy Kerr, a New Zealand mathematician, found a solution of Einstein’s equations for a rotating black hole, which had bizarre properties. The black hole would not collapse to a point (as previously thought) but into a spinning ring (of neutrons). The ring would be circulating so rapidly that centrifugal force would keep the ring from collapsing under gravity. The ring, in turn, acts

## Hyperspace – Seminar #1

like the Looking Glass of Alice. Anyone walking through the ring would not die, but could pass through the ring into an alternate universe. Since then, hundreds of other “wormhole” solutions have been found to Einstein’s equations. These wormholes connect not only two regions of space (hence the name) but also two regions of time as well. In principle, they can be used as time machines.” \* Michio Kaku: Michio Kaku, “Blackholes, Wormholes and the Tenth Dimension,” Dr. Kaku’s Universe, <http://mkaku.org/home/?s=wormhole&x=26&y=8> (accessed April 2, 2010).

Wormholes: Connects two separate regions of either space (different location) or time or both

Many sizes: from large “Black Hole” galaxy size to the size of an atom:

The Event: Elijah and Elisha: about 850 B.C.: *“And it came about when the LORD was about to take up Elijah by a whirlwind to heaven, that Elijah went with Elisha from Gilgal...As they were going along and talking, behold, there appeared a chariot of fire and horses of fire which separated the two of them. And Elijah went up by a whirlwind to heaven. Elisha saw it and cried out, “My father, my father, the chariots of Israel and its horsemen!” And he saw Elijah no more Then he took hold of his own clothes and tore them in two pieces.”* 2 Kings 2:1, 11-12

Elijah is taken directly to heaven : The next time Elijah shows up in scripture is at the Mt. of Transfiguration with Moses and Jesus; some 850 years later

“Chariot of Fire” appears with “Horses of Fire”: Note that Elijah doesn’t get in the chariot; the chariot is used to keep Elisha from following Elijah: Elijah “goes up” by the whirlwind

Whirlwind: Translated from *ca’ar* in Hebrew: Used 24 times in scripture, most of which indicate some form of supernatural connection with the spiritual realm: Ancient Hebrew of the word *ca’ar* implies that it is: a great twisting object that is a window to something

Conclusion: God has told us these things for a reason and it is clear that “ca’ar” (whirlwind) is a means of translation from one part of the space-time continuum to that of higher dimensions, and is described in much the same way as a “wormhole” in physics.

Conclusion: God has told us these things for a reason and it is clear that “ca’ar” (whirlwind) is a means of translation from one part of the space-time continuum to that of higher dimensions, and is described in much the same way as a “wormhole” in physics

### Hyperspace in Scripture: Bizarre Example: Mind Teaser: Genesis 18:1-15

- There was a lady named bright
- Who could travel faster than light
- She went in one day, in the relative way
- And returned the previous night (anonymous)

Situation: Genesis 18:1-15: *“And the LORD [Yehovah] appeared unto him [Abraham] in the plains of Mamre: and he sat in the tent door in the heat of the day.”* (Gen 18:1)

Three “men” show up in front of Abrahams tent: Abraham has a meal prepared (BBQ): Bread, calf (beef), curds (cheese)

3 Men: One is the Lord, the other two are angels on their way to Sodom and Gomorrah

Most commentators recognize that “the Lord” is “the Lord” (Gen 18:1, 22 & 19:1; comp Jn 1:18)

Huge problem: where did the Lord’s body come from? Referred to as a “pre-incarnate” appearance of Christ

Several others: Abraham several times (wander/traveler); Jacob (wrestles); Joshua (Commander in Chief); others

Options?

## Hyperspace – Seminar #1

- 1988 Physicist Kip Thorne of California Institute of Technology (Cal Tech) published in the prestigious Physical Review Letters declaring: “Time travel is not only possible, but probable under certain conditions” \* As quoted in: Michio Kaku *Hyperspace* (Anchor Books, 1995), 20
- Huge debate and many issues
- Physics Michio Kaku notes of the issues with time travel but also comments on the only real feasible possibility: “For example, by going back in time, we are fulfilling the past, not destroying it. Thus the world line of the inventor of time travel is a closed loop. His world line fulfills, rather than changes, the past.” \*\* Michio Kaku *Hyperspace* (Anchor Books, 1995), 239-240
- 1992: Renowned Physicists Stephen Hawking declared that time travel was impossible – determined to study the problem: “If time travel is possible, then where are the tourists from the future?” \*
- 1998: Stephen Hawking published a paper retreating to the position: “Time travel is possible but unlikely; because we have no examples of ‘tourists’ from the future”: There are numerous possibilities in the math supporting time travel: wormholes, blackholes.....
- Seems to be a lot of support for the potential but a large recognition of the paradoxes created by time travel

Conclusion: Sutliff conjectures: “The most likely explanation for the appearance of Christ in the Old Testament is time travel (wormhole or other)

Other conjectures (materialized a body, took over another's body...seem rather unlikely or more “theo-magic”

### **Hyperspace in Scripture: Future: New Jerusalem (Revelation 21)**

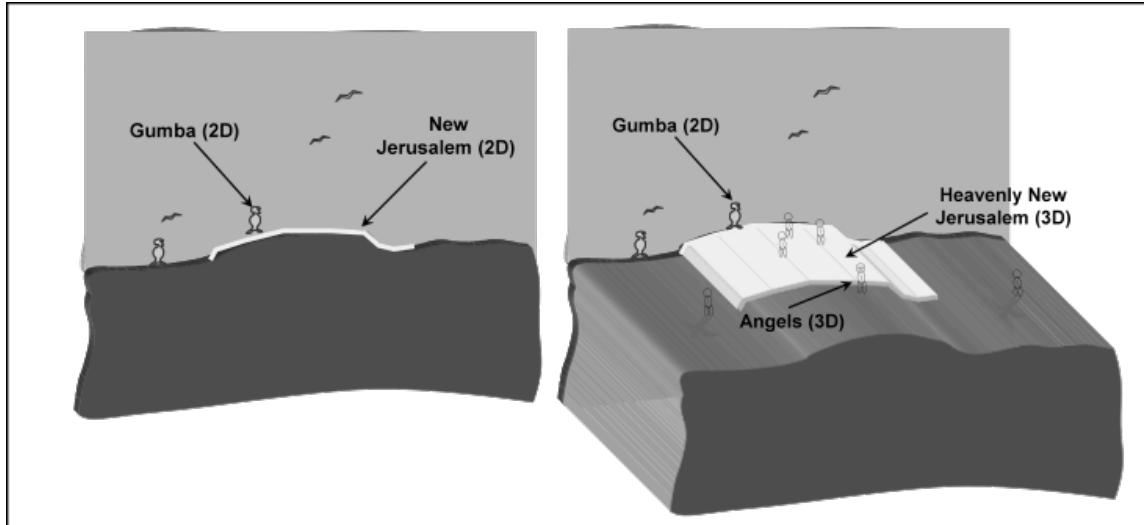

New Jerusalem: *“And he carried me away in the Spirit to a great and high mountain, and showed me the holy city, Jerusalem, coming down out of heaven from God, having the glory of God Her brilliance was like a very costly stone, as a stone of crystal-clear jasper. It had a great and high wall, with twelve gates, and at the gates twelve angels; and names were written on them, which are the names of the twelve tribes of the sons of Israel. There were three gates on the east and three gates on the north and three gates on the south and three gates on the west. And the wall of the city had twelve foundation stones, and on them were the twelve names of the twelve apostles of the Lamb. The one who spoke with me had a gold measuring rod to measure the city, and its gates and its wall. The city is laid out as a square, and its length is as great as the width; and he measured the city with the rod, **fifteen hundred miles; its length and width and height are equal.** And he measured its wall, seventy-two yards, **according to human measurements, which are also angelic measurements**” Rev 21:10-17 (NAS)*

Major stability issue

One dimension is not “height” but into the spiritual dimension

Hyperspace – Seminar #1

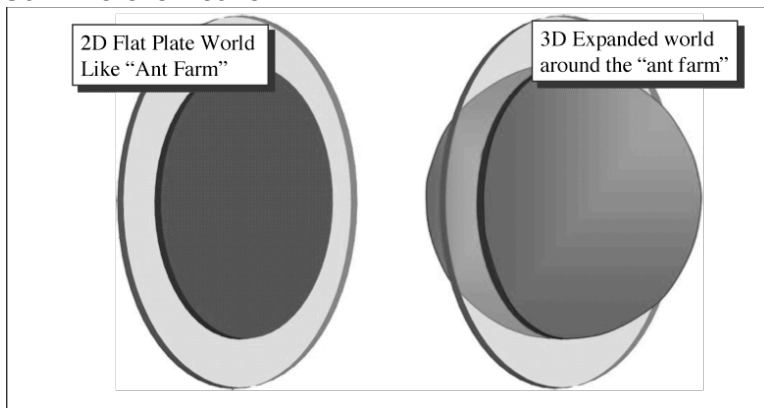

2D to 3D analogy of a 3D to 4D problem

Conclusion: Sutliff proposes: Length is the same in the spiritual realm and on Earth:

New Jerusalem is “square” in our world but extends 1,500 miles into hyperspace:

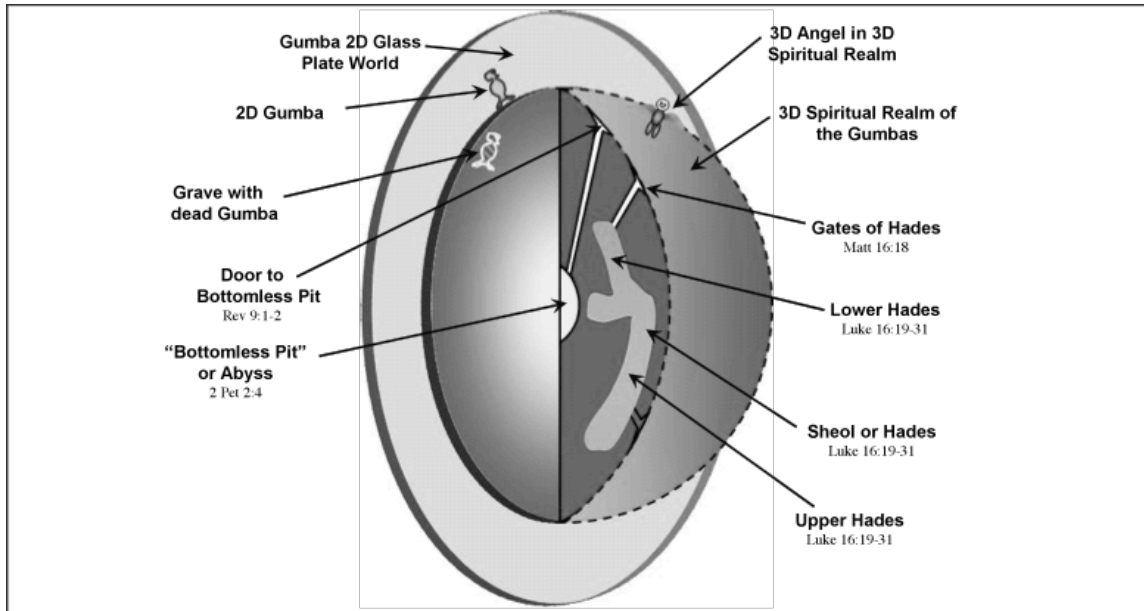

In context, God tells us that the spiritual realm and Earth have the same measurement (we are clearly linked)

So: Where is Heaven?

## Hyperspace – Seminar #1

- Where is Heaven & the Spiritual Realm:
  - It is right next to us!
- Where is the Throne of God?
  - Travel to Jerusalem; up on Mt. Zion; Make a sharp turn, open the veil and take a look at the most magnificent sight you will ever see!
  - Or read Hebrew 12:18-24

### Summary:

- Strong indication from Scripture that Heaven is in Hyperspace
  - Jesus appears, handwriting on the wall
  - Elisha's servant see's into the spiritual realm; also Jacob
- Other Biblical events and statements are consistent with higher dimensional universe
  - Worm holes (Elijah, Stephen)
  - Time or Space travel (Jesus, also possible Ezekiel, John, Philip)
  - Properties of the Universe
  - Temple is Heaven is 4D ("shadow")
- Heaven is the "Land of More"

*"While we look not at the things which are seen, but at the things which are not seen; for the things which are seen are temporal, but the things which are not seen are eternal."*  
 2 Corinthians 4:18
